

Pre-Track Tech Inspection Certification

Year: _____ Make: _____ Model _____

Owner/Driver: _____ Car Color _____

Address: _____ City: _____ State: _____

Zip: _____ - _____ Tel: (_____) _____

VEHICLE INSPECTION DISCLAIMER: This evaluation is not intended, and should not be relied upon, to create a safe condition for your vehicle during its use outside of this event or during the event itself. You agree to hold harmless the event sponsors and technicians from any liability arising from the operation of your vehicle outside of, or in transit to or from, this event, or the operation of your vehicle during this event, from mechanical problems occurring in your car which are not uncovered during this inspection. Each participant in the event assumes personal responsibility for operating his or her vehicle and for maintaining optimum mechanical condition of the vehicle. This inspection is intended ONLY as a second tier safety measure in order to provide a safer event for all participating. **DRIVER INITIAL HERE:** _____

TECH INSPECTOR: Please evaluate this vehicle's suitability for high speed driving on a race track, under extreme lateral G loading, and fully utilizing the braking system, as well as its ability to accelerate repeatedly. Please check the box if satisfactory and "X" if not satisfactory. Use the comments area to describe any existing or potential areas of concern. Make as thorough a visual inspection as possible just short of extensive disassembly. Vehicle inspection must be made no earlier than May 13th.
